Kota Tangerang

I'm an IT Support professional with more than two years of hands-on experience ensuring smooth and reliable system performance. My work involves handling hardware and software installations, managing user accounts, and maintaining both network and server operations. I take pride in being detail-oriented, analytical, and able to quickly troubleshoot technical issues to keep systems running efficiently.

What I enjoy most about my work is finding solutions that make technology simpler and more effective for everyone. I value teamwork, clear communication, and continuous learning especially when it comes to new tools and emerging technologies that can improve productivity. I'm always excited to grow, take on new challenges, and contribute to creating a more connected and efficient work environment.
